We help people get out on the landscape

Out of practice or no longer have the gear ?

Don't know where to go ?

Keep intending to get out but just can't get away ?

Got a loved one to treat with a Rocky Mountain outdoor adventure ?

We can help you make it happen

Full moon hikes, meteor shower bivouacs

Writer's campouts, paint-outs, sunsets

Canoeing, sailing, mountain biking, trail running

Backcountry skiing, snowshoeing, winter camping

What is your fancy

Safari trips involve stretching yourself a bit

And always, a big dose of *Vitamin O (Outside)*

We'll give you a trip to remember

Inscape on the landscape

begets a new inscape in the poet

which begets a new inscape in the reader

(Merrill Gilfillan, *Burnt House to Paw Paw*, chap 4)

Give us a call and see where it leads

The way it works

- We visit to discuss desires and possibilities
- We make a plan
- And then we do it
- And then you pay me for expenses and a tip of your choosing

Most of our reward is in the sharing

When the preacher is paid,
the spirit leaves the words,
and the blessing is withheld

We are located 14 miles east of Ft Collins, Colorado

So most Safari trips are in the northern Front Range area

Some of the trips in the Destinations section, I would do at the drop of a hat

Other trips are more distant, and involve more commitment and preparation

Destinations

For the Love of Paddling

Inspiration at Lake Powell

Sculpted sandstone
everywhere you look
Cliffs, buttes, ramparts
Grains, dips, swirls, cross-bedding
Sky and water and cliffs

Amphitheatres, drips, ephemeral waterfalls
Fantastic swimming in such coves
Feeder stream maples, shoreline riparian
Bird song echoes, lizards, petrified wood

Flakes and scales
fallen from the cliffs
Curtains of water stain
More amphitheatres
more palisades
Towering thunderheads

Endless canyons ... Endless sun ... Endless water

Share the dream?

To paddle these waters, see these rocks

And be healed by the wilderness, as it always does
